A Castle Tower from Card

Roll a crenellated wall into a small standing tower.

YOU WILL NEED: card, crayons, scissors and tape.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Draw a door and stone patterns on the wall panel, keeping the narrow side tab clear.

2. Cut around the wall and its stepped top edge.

3. Roll the wall into a cylinder so the plain tab overlaps behind the opposite edge.

4. Tape the seam on the inside. Check the lower edge rests evenly on the table.

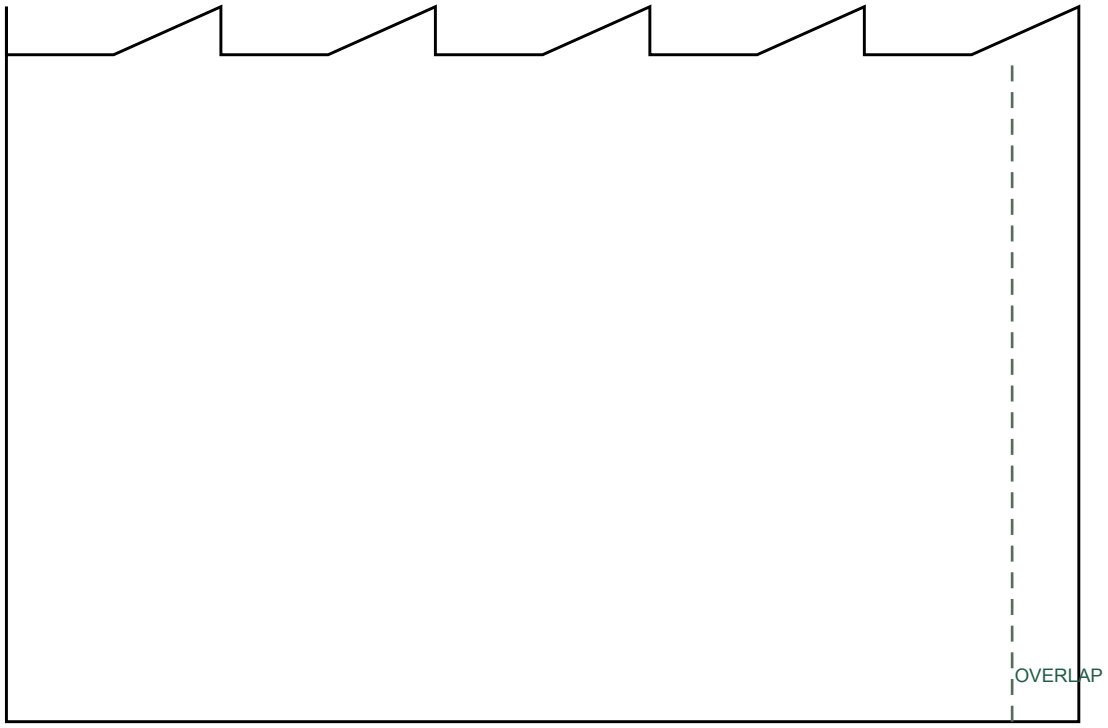
5. Add a paper flag to the outside with tape. Keep it a tabletop model rather than a wearable toy.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

A Castle Tower from Card

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.



Decorative band or flag strip
