PAPER CRAFT / AGES 4-7

Bear Portrait Layers

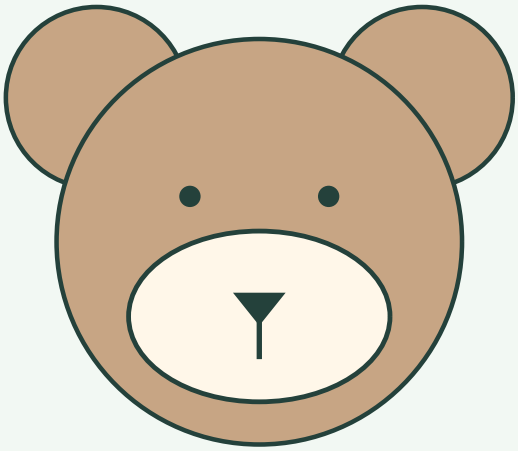
Build a bear face from round paper shapes.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Colour the large head, two ears and oval muzzle.
2. Cut around all four pieces.
3. Glue the ears behind the head. Place the muzzle near the bottom of the face.
4. Draw eyes, a nose and a mouth. Add your own background.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Bear Portrait Layers

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. You can make a brown bear, a polar bear or an imaginary colourful bear.
