Build a Paper Road Network

Arrange separate road tiles into your own route.

YOU WILL NEED: card, crayons and child-safe scissors.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Colour the road borders and draw different places in the spaces beside them.

2. Cut out all six square tiles along their outside edges.

3. Turn the tiles until the wide road ends meet from one tile to the next.

4. Try a route with a bend and a junction. Check where a toy traveller could begin and finish.

5. Rearrange the tiles to build a different network. There is more than one possible layout.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Build a Paper Road Network

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
