Fold a Little Paper Boat

Follow a sequence of folds to make a paper boat model.

YOU WILL NEED: paper and crayons.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Fold the rectangle in half. Bring its two folded top corners towards the centre to form a roof shape.

2. Fold the loose lower strips upwards, one on each side, making a paper hat.

3. Open the hat from underneath and flatten it into a diamond.

4. Fold the bottom corners of the diamond upwards on both sides. Open and flatten into a smaller diamond.

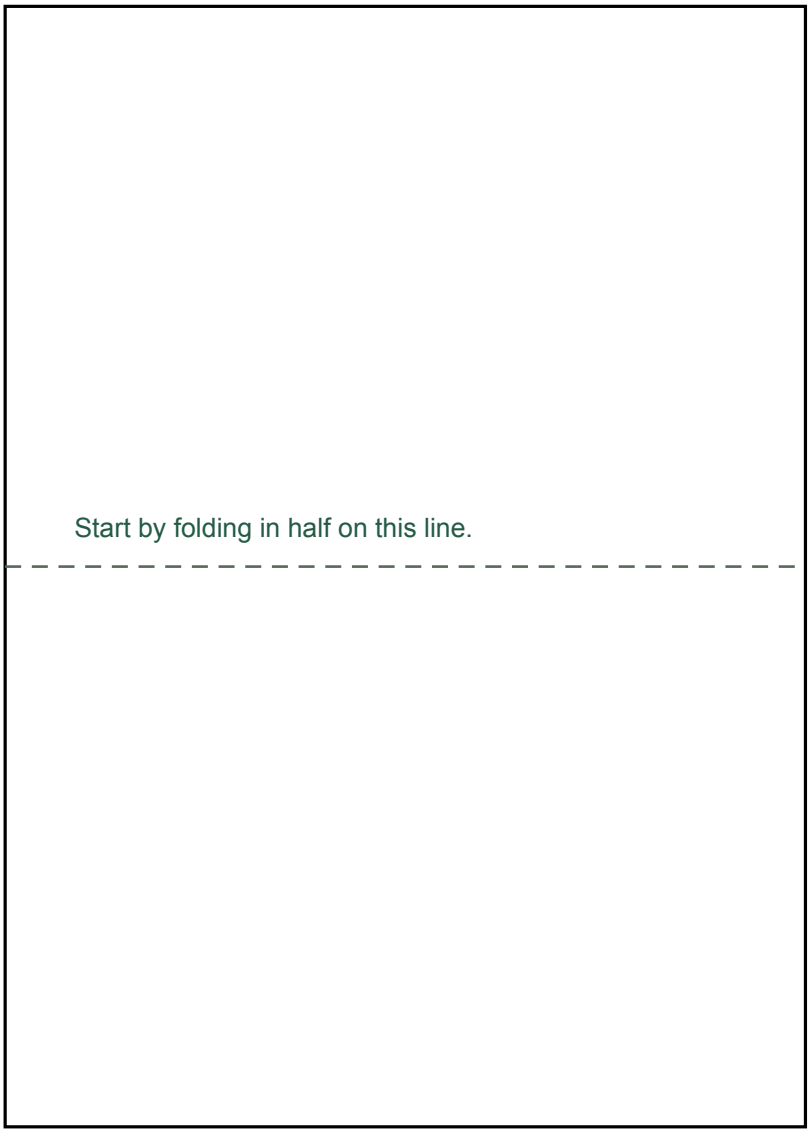
5. Gently pull its two upper side points apart to open the boat. Display it dry; keep paper out of ponds and streams.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Fold a Little Paper Boat

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.



Follow the folding instructions on page 1.
