PAPER CRAFT / AGES 4-7

Hedgehog Leaf Coat

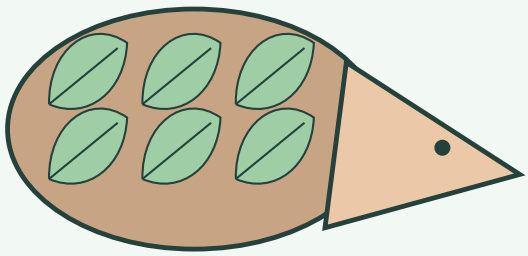
Make a woodland friend with a paper-leaf coat.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Colour the body, head and six leaves.
2. Cut out all eight pieces. Glue the head beside the oval body on spare paper.
3. Overlap the paper leaves on the body. Leave the face clear.
4. Draw an eye, feet and a forest floor. Count the leaves.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Hedgehog Leaf Coat

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. Use paper leaves. You do not need to collect real plants.
