PAPER CRAFT / AGES 4-7

Ladybird Wing Flaps

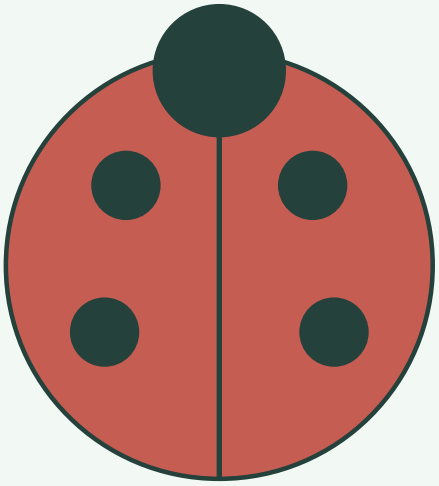
Open two paper wing covers to reveal a hidden picture.

YOU WILL NEED

Crayons, child-safe scissors and a glue stick.

1. Colour and cut the body and head. Draw a hidden picture on the body.
2. Colour and cut the two half-circle covers and two hinges. Add spots to the covers.
3. Glue the head behind the body. Fold each hinge at its dashed line. Glue one half behind a cover.
4. Glue the other half of each hinge to the body so the covers meet in the middle.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Ladybird Wing Flaps

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. These are pretend lifting covers. Use the two paper hinges, not metal fasteners.
