PAPER CRAFT / AGES 4-7

Friendly Fox Face

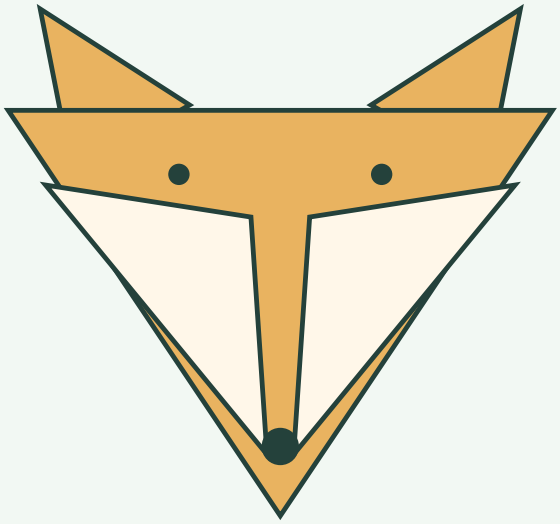

Layer simple shapes to make a fox portrait.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Colour the large face and two ear triangles. Keep the cheek pieces pale.
2. Cut around all five pieces.
3. Glue the ears behind the wide top of the face. Glue both cheeks on the face.
4. Draw two eyes and a nose. Mount your fox on spare paper.

ONE WAY TO MAKE IT

Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Friendly Fox Face

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. Give your fox its own friendly expression.
