PAPER CRAFT / AGES 4-7

My Helping Shield

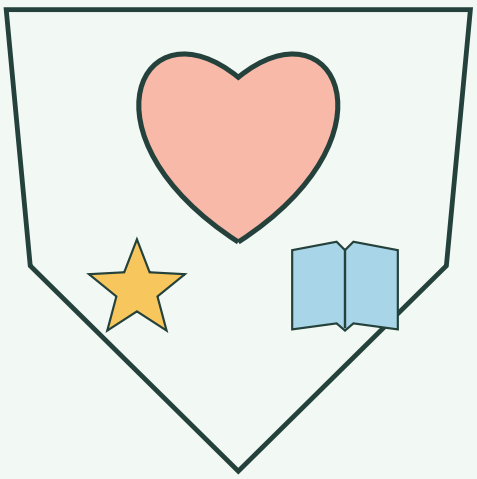
Design a shield that celebrates a way to help.

YOU WILL NEED

Crayons, child-safe scissors and a glue stick.

1. Colour the big shield and three small picture badges.
2. Cut around the shield and badges.
3. Choose where to glue the heart, star and book badge.
4. Draw one way you can help someone in the remaining space.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

My Helping Shield

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. This is a paper picture, not protective equipment or a wearable shield.
