My Moving-Hand Clock

Move paper hands to explore clock faces.

YOU WILL NEED: card, crayons, scissors and a paper fastener fitted by an adult.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Colour the clock border without covering the printed numbers.

2. Cut out the clock face and the two hands. Notice which hand is longer.

3. An adult makes the marked holes and fits a paper fastener through both hands and the face.

4. Fold the fastener ends flat on the back. Turn the hands gently to check they can move.

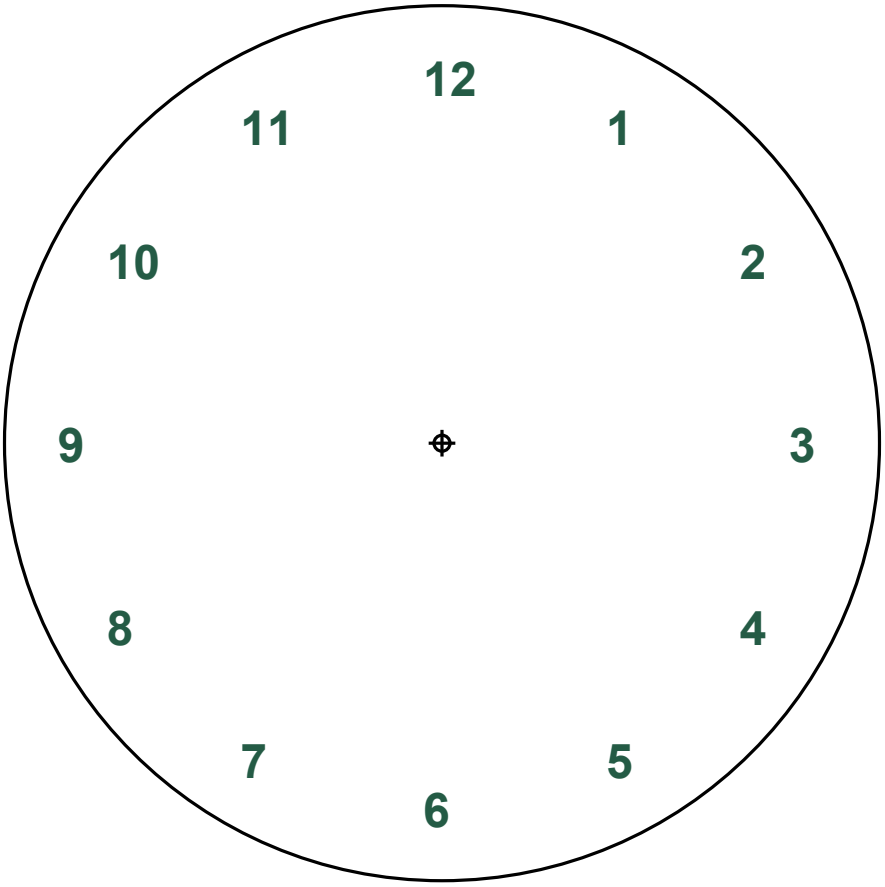
5. Try an o'clock time: long hand at 12, short hand at an hour number. This model does not tell time by itself.

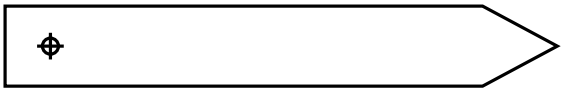
Let glue dry before playing. Keep your model and use leftover paper for another creation.

My Moving-Hand Clock

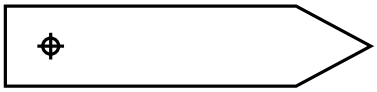
PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.





LONG MINUTE HAND



SHORT HOUR HAND
