Paper Desk Pot

Turn a paper sleeve into a pot for light paper flags.

YOU WILL NEED: card, crayons, scissors, tape and glue.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Decorate the long sleeve and cut it out with its small bottom tabs attached.

2. Roll it into a cylinder and tape the side seam. Fold the small bottom tabs inward.

3. Cut out the two base circles. Glue one under the tabs and one inside above them.

4. Let the base dry completely. Add the decorative band around the outside.

5. Use it for light paper flags or notes. It is not a drinking cup or a container for water.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Paper Desk Pot

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
