PAPER CRAFT / AGES 4-7

Patchwork Paper Quilt

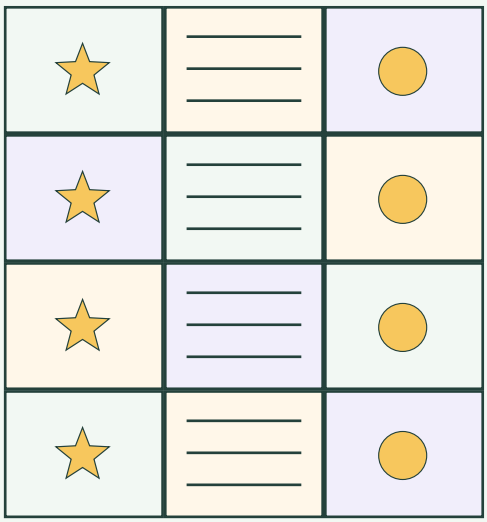

Arrange twelve patterned tiles into a paper quilt.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Colour the twelve square tiles. Add your own pattern to blank tiles.
2. Cut the squares on their outside lines.
3. Arrange a three-by-four rectangle on spare paper. Try a repeating pattern.
4. Glue down the tiles. Add a drawn border around the quilt.

ONE WAY TO MAKE IT

Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Patchwork Paper Quilt

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. The quilt is a paper picture. Count three tiles across and four down.
