PAPER CRAFT / AGES 4-7

Ocean Mini Flip Book

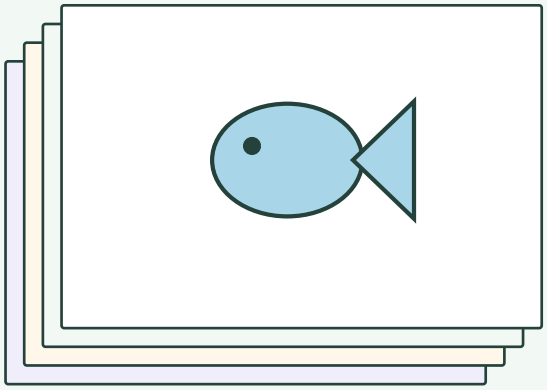
Make four little pages for an underwater story.

YOU WILL NEED

Crayons, child-safe scissors and a glue stick.

1. Colour the cover and the sea pictures. Add a word or a sentence to each page.
2. Cut the four page rectangles. Fold the narrow left tabs backwards.
3. Stack the pages with the cover on top. Glue the folded tabs together only.
4. Let it dry. Gently turn one page at a time and tell your ocean story.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Ocean Mini Flip Book

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. Use small amounts of glue on the tabs so the pages can turn.
