Pop-Up Rainbow Greeting

A paper arch rises when the card opens.

YOU WILL NEED: paper, crayons, scissors and glue.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

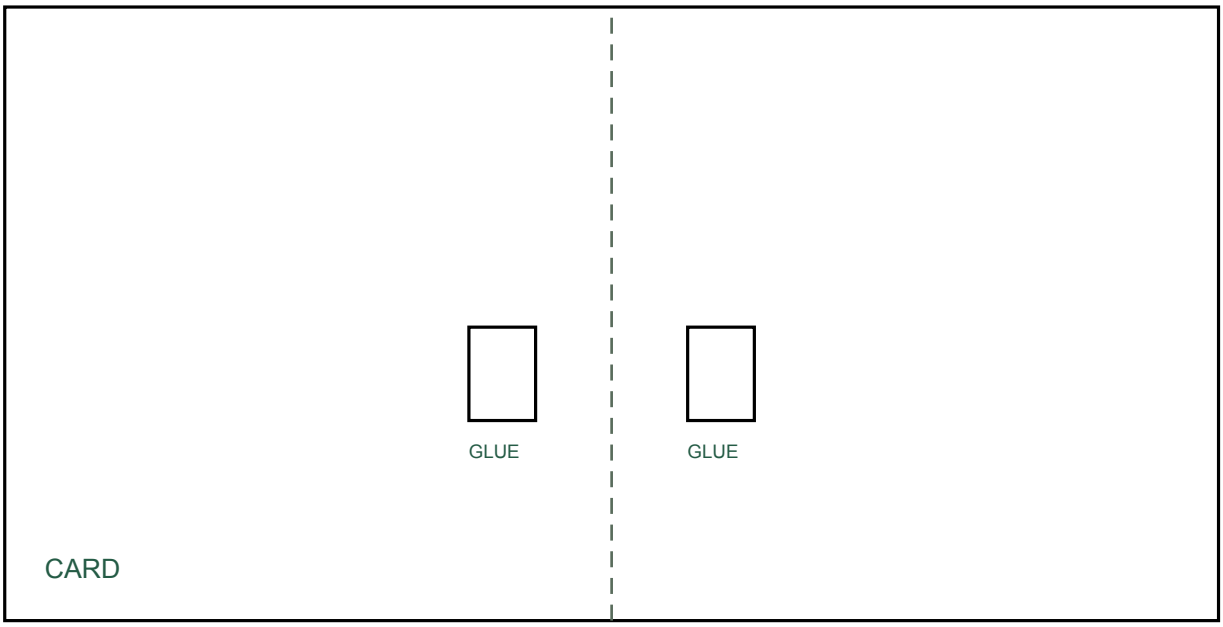

1. Fold the greeting card in half on its dashed centre line.
2. Colour the long arch strip with rainbow bands and cut it out.
3. Fold the two short end tabs backwards on their dashed lines.
4. Open the card flat. Glue one tab on each marked patch, keeping the curved middle free.
5. Let it dry fully before slowly closing and opening the card. Adjust the arch gently so it folds inside.

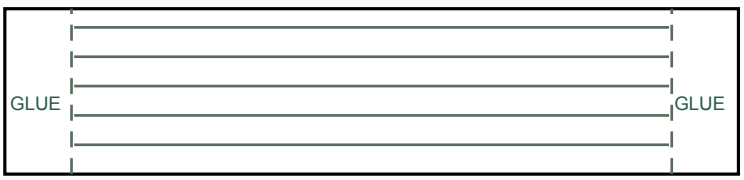

Let glue dry before playing. Keep your model and use leftover paper for another creation.
