Roll a Story Cube

Roll a picture and add a sentence to a story.

YOU WILL NEED

This template, crayons, scissors and paper tape.

An adult must supervise cutting. Use child-safe scissors. Keep small paper pieces away from your mouth.

1. Colour the six pictures. Cut around the single outside cross shape.
2. Fold every dashed line to bring the squares together into a cube.
3. Ask an adult to help tape each open edge. The pictures stay outside.
4. Roll gently on a table. Make up a story sentence using the picture on top. Roll again to continue.

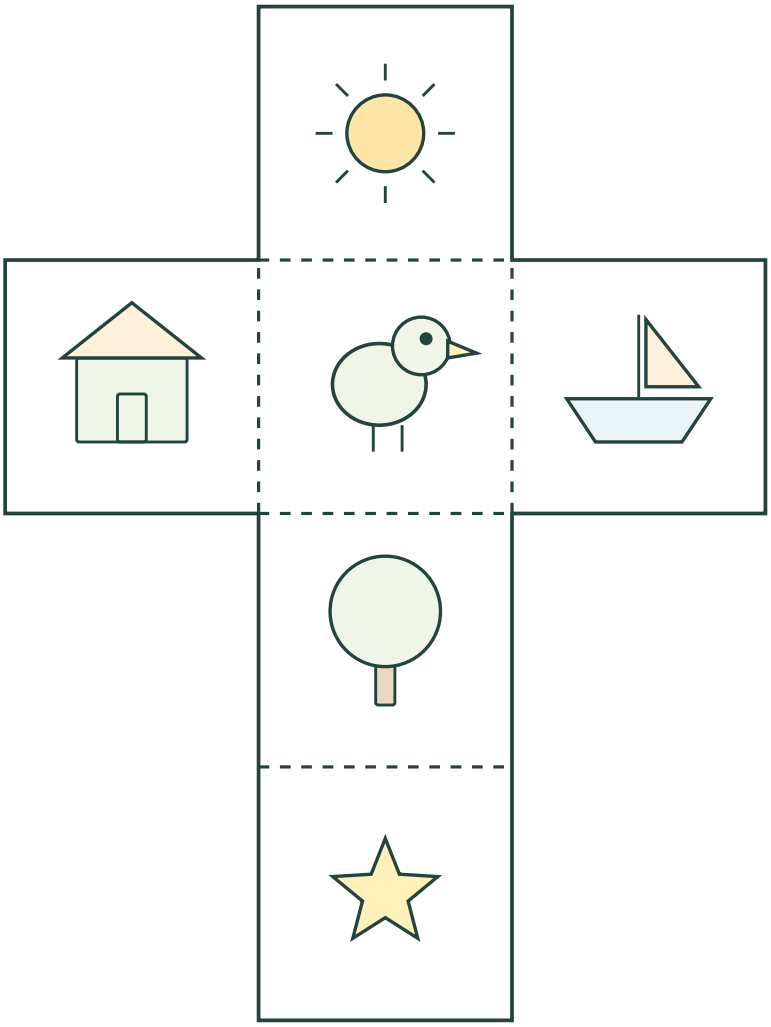

You can tell a story together. There are no wrong story ideas.
