Roll a Paper Spyglass

Make a pretend looking tube for noticing details.

YOU WILL NEED: crayons, paper, child-safe scissors and tape.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Decorate the large rectangle with patterns. Keep the narrow glue strip clear.

2. Cut out the rectangle. Roll it gently around an empty cardboard tube to find a comfortable width.

3. Overlap the plain strip beneath the opposite edge and tape the long seam.

4. Remove the cardboard former if you used one. Add the decorative band around the outside.

5. Look through the plain tube at a nearby object. It does not magnify. Never look at the sun.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Roll a Paper Spyglass

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
