Sliding Picture Story

Move a sequence of pictures through a viewing card.

YOU WILL NEED: paper, crayons, scissors and tape.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Draw four different moments in the long strip, one in each frame.

2. Cut out the strip and viewing card. An adult cuts the two short slots on the card.

3. Feed the strip down through one slot and up through the other so one picture sits between them.

4. Slide the strip gently to show each moment in order. Keep the strip unglued.

5. Tell the story as the pictures pass through. Add a large pull tab at the end if it is hard to hold.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Sliding Picture Story

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
