Three-Layer Landscape

Stand three picture panels at different depths.

YOU WILL NEED: card, crayons, scissors and glue.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Draw a faraway sky on the tallest panel, hills on the middle panel and a fence on the short panel.

2. Cut the three panels and the base. Keep the bottom tabs attached to each panel.

3. Fold every bottom tab backwards along its dashed line.

4. Glue the tallest panel on the back marked line, the middle panel on the centre line and the shortest at the front.

5. Let the glue dry. Look from the front to see how the overlapping layers create a sense of distance.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Three-Layer Landscape

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
