PAPER CRAFT / AGES 4-7

Springy Star Greeting

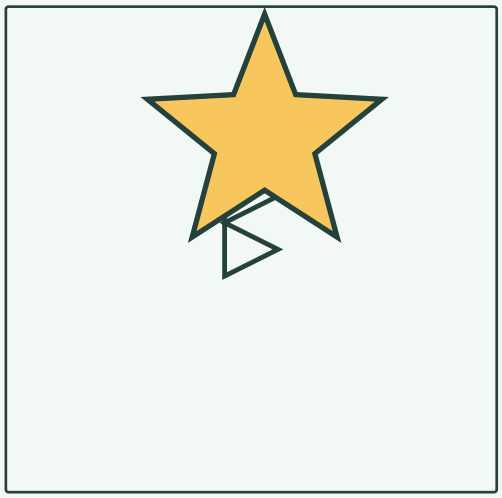
Add an accordion paper spring to the front of a card.

YOU WILL NEED

Crayons, child-safe scissors and a glue stick.

1. Colour the star and card. Cut the card, strip and star.
2. Fold the card in half. Fold the small strip back and forth on its dashed lines.
3. Glue one end of the folded strip onto the card front. Glue the other end behind the star.
4. Let the glue dry. Write or draw a message inside your card.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Springy Star Greeting

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. Use gentle folds. The spring is made from paper, not metal.
