Tissue-Colour Window

Layer translucent paper behind a sturdy frame.

YOU WILL NEED: card, coloured tissue paper, scissors and glue.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Colour the outer frame and cut it out. An adult helps remove the centre window.

2. Tear tissue into broad pieces. Hold one up to ordinary room light and notice what you can see through it.

3. Lay the frame face down. Glue tissue around the back edge so it spans the opening.

4. Overlap a few tissue pieces to make new colour areas. Keep glue on the frame and paper joins.

5. Let it dry. Hold it near a window with an adult, without climbing or looking at the sun.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Tissue-Colour Window

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
