PAPER CRAFT / AGES 4-7

Story Doors Lift and Tell

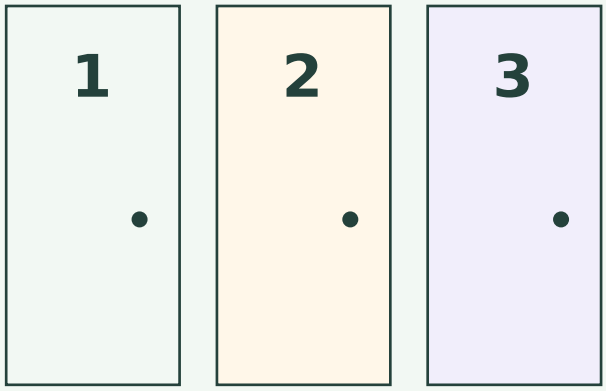
Make three lift-up doors with hidden characters.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Decorate the printed door in the bottom half of each rectangle.
2. Cut the three rectangles. Fold each top half backwards behind its door.
3. Lift the front door. Draw a character on the blank inside of the back panel.
4. Glue the outside of the back panel to spare paper. Lift the doors and tell a story.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Story Doors Lift and Tell

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. Keep the folded edges attached. Do not cut the dashed lines.
