Turn the Weather Wheel

Turn a pointer to describe the weather you can observe.

YOU WILL NEED: card, crayons, scissors and one paper fastener fitted by an adult.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

1. Draw sun, cloud, rain and wind in the four large wheel sections.

2. Cut around the wheel and the broad pointer. Ask an adult to make the marked centre holes.

3. The adult fits the paper fastener through the pointer and wheel, folding its ends flat on the back.

4. Turn the pointer slowly. It should move without tearing the card.

5. Look outside safely and choose the picture that best fits. More than one kind of weather can happen together.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

Turn the Weather Wheel

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.
