Woven Paper Heart Panel

Weave wide strips through a heart-decorated panel.

YOU WILL NEED: paper, crayons, scissors and glue.

Work with a grown-up. Use child-safe scissors. A grown-up handles inner cuts, holes and fasteners. Keep small pieces away from mouths.

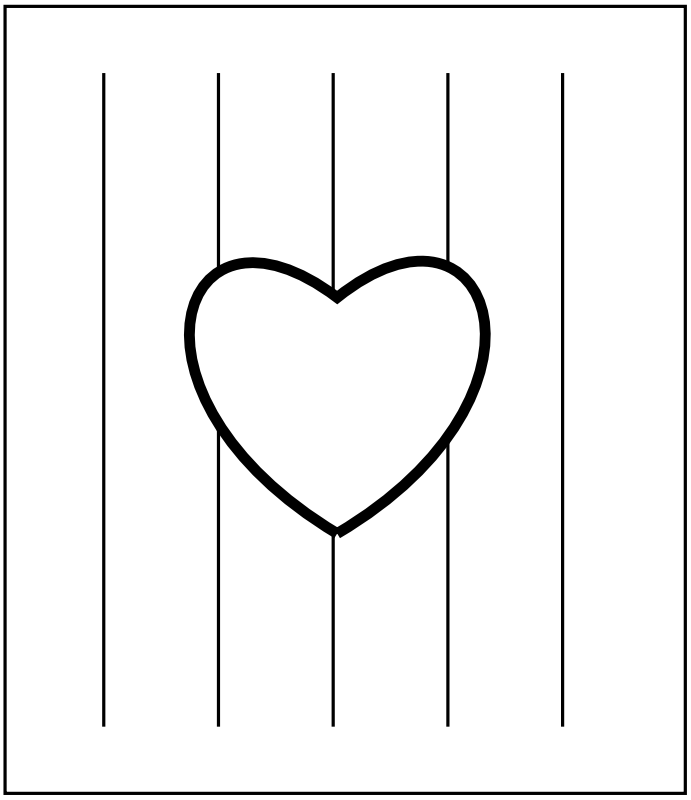

1. Colour the heart outline on the base panel. Cut the panel out.
2. Ask an adult to cut only the five inner slit lines, stopping before the border.
3. Cut the five wide strips. Slide the first strip over one band and under the next.
4. Weave the next strip in the opposite over-under pattern. Continue with the remaining strips.
5. Glue only the loose strip ends at the back. The heart picture can peek through the woven pattern.

Let glue dry before playing. Keep your model and use leftover paper for another creation.

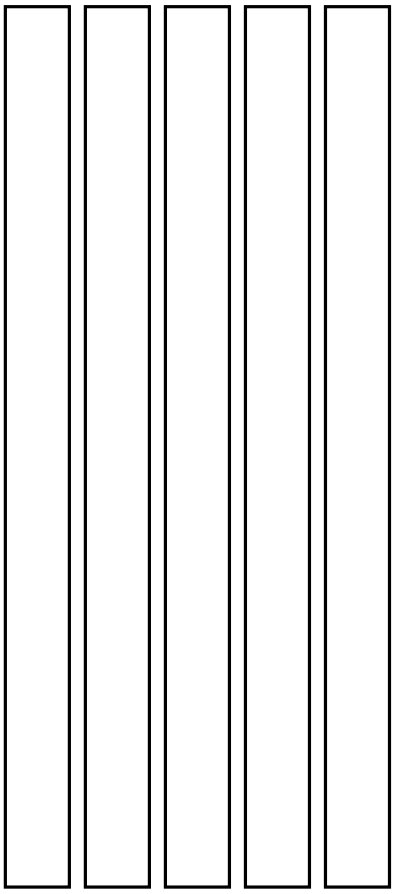

Woven Paper Heart Panel

PRINTABLE TEMPLATE

Print at 100%. Solid outer edges: cut. Dashed lines: fold. Inner cuts are described in the steps.

Cut only the five long slit lines.
