PAPER CRAFT / AGES 4-7

Whale Ocean Collage

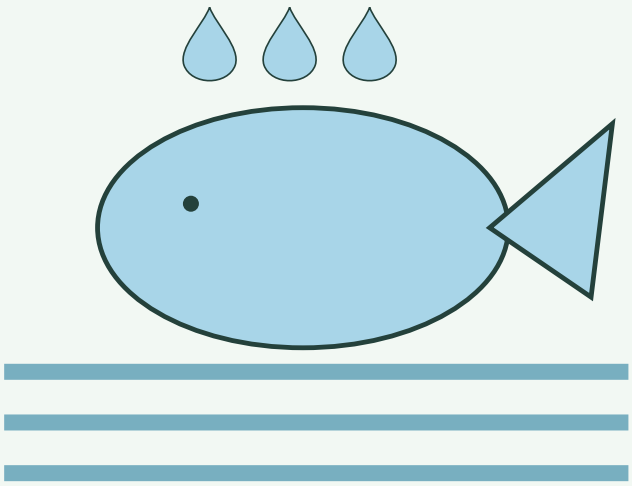
Make a whale swim above three paper waves.

YOU WILL NEED

Spare paper, crayons, child-safe scissors and a glue stick.

1. Colour and cut out the body, tail, three waves and water drops.
2. Glue the tail behind one end of the oval body.
3. Glue the waves onto spare paper. Place the whale above them.
4. Add an eye and a mouth. Glue the drops above the whale.

ONE WAY TO MAKE IT



Adult supervision: child-safe scissors, glue stick, and paper only. Keep small pieces out of mouths.

Whale Ocean Collage

Print at 100% on A4, or fit to Letter. Colour first. Cut the thick outside edges.

Dashed lines: fold. Thin inner lines: decorate. The water drops are a playful way to show the whale surfacing.
