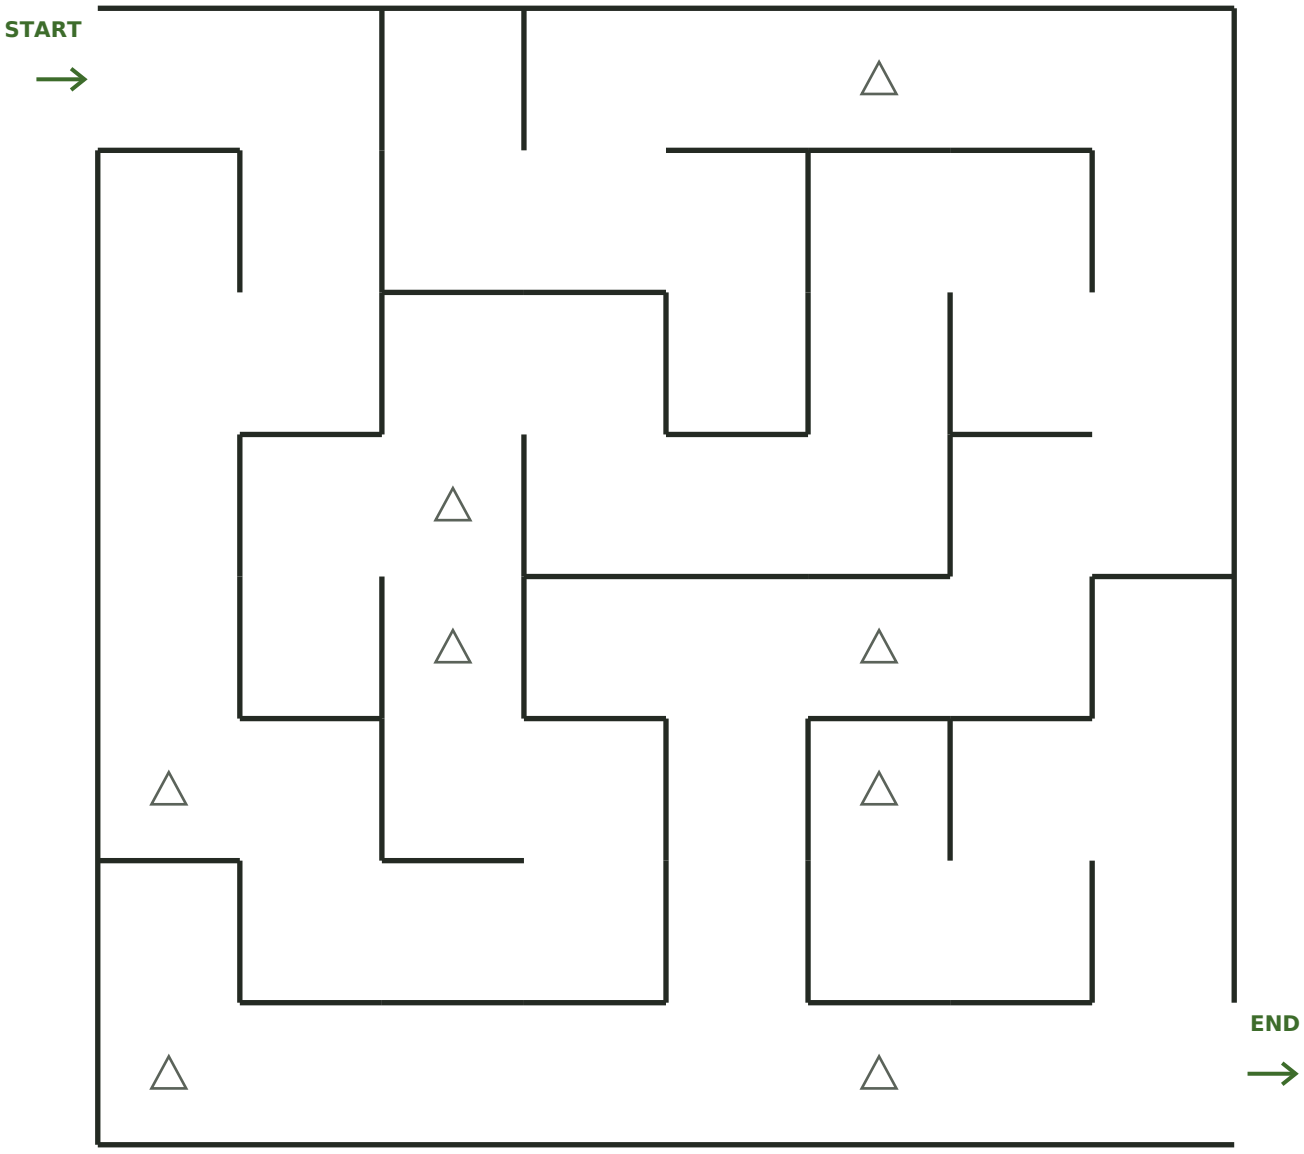
Balloon landing

Guide the hot air balloon to its landing spot.
Trace from START to END. Stay between the walls.

Name _____ Date _____



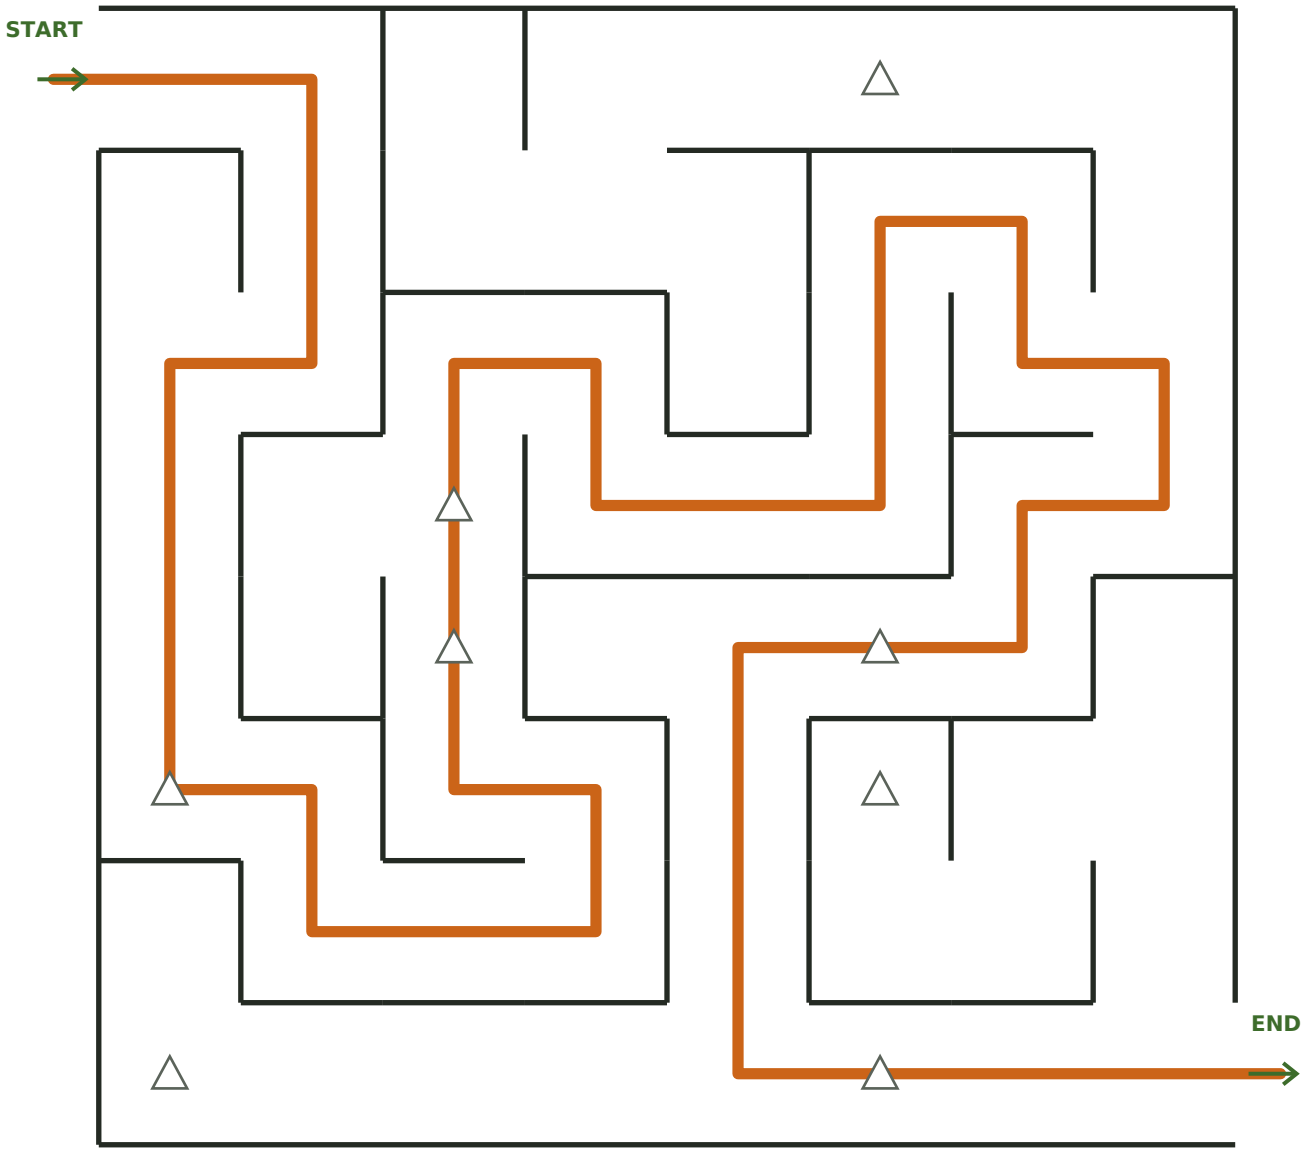
Count the triangles you pass on your path.

I found ☐ triangles.

Try first with your finger. Then use a pencil.

Balloon landing solution

The coloured line shows the one correct route.
Only count the triangles touched by the route.



Answer: 5 triangles are on the correct route.

Trace it slowly and count each marked shape once.

A grown-up can read the instructions aloud.
